“This book is a power-packed brevity of truth and wonder. If you’re not Catholic, you will wonder why not...And, if you are, you will want to embrace the Catholic faith more fully, deeply and gratefully.”

-Sister Marie Pappas from *Pathways of Learning*, SIRIUS XM THE CATHOLIC CHANNEL 129

Dr. Peter Kreeft, describes himself as “a bridge-builder between professional philosophers, who are brilliant, but unintelligible, and ordinary people who don’t like the philosophers, but have philosophical questions...I translate them into ordinary language.”

Also, in reference to his own book, Dr. Kreeft has this to say:

“My title explains itself.

But it’s misleading.

There are more than 40 reasons.

In fact, there are at least ten to the 82nd power, which, I am told, is the number of atoms in the universe. And that’s just in ordinary matter, which makes up only 4.9% of the universe, the rest being dark matter and dark energy.

Each of my reasons is an independent point, so I have not organized this book by a succession of chapters or headings. After all, most readers only remember a few big ideas or separate points after reading a book. (I’ve never heard anyone say ‘Oh, that was a good continuous-process-of-logically-ordered-argumentation’ but I’ve often heard people say, ‘Oh, that was a good point.’

Which takes me back to *my* main point: ‘Why are you a Catholic?’ is a good question.

A good question deserves a good answer.

Here are forty of mine.”
