

Reel Reviews with Fr. Luigi

What is the message of this movie?

Olivia Hussey works very well in the life personification of Mother Teresa of Calcutta. In this original, uncut full-length movie we automatically come closer to feel the struggle, the challenges and the joy that moved St. Mother Teresa to become the best expression of God's will in service for the "poor of the poor". The film refreshes our memories about a Saint very close to us in time and space with a special invitation to deepen our faith and relationship with God. Like in Mother Teresa's life, we may contemplate small daily miracles in the charity and humble journey of our time.

Yesterday's Saints, Wisdom for Today.
