What is the message of this movie?

It is clearly "a spectacular movie for the whole family" who likes to spend an evening together and enjoy the original presentation imagining a year in the boyhood of Jesus. This video is clearly inspired by Scripture and has a sweet flavour of history.

Mary and Joseph are taking the extraordinary journey from Egypt to Nazareth and on to Jerusalem. They are afraid to explain and answer the many questions when Jesus turns to them for answers. In the same way, how can we as parents, teachers and educators answer the many questions of our children in the order of faith and life? How the Family of Nazareth was able to be a guideline for Jesus' true identity needs more consideration, but this video can offer a remarkable insight. (112 minutes)
